

11th International Slipper Symposium
Altamonte Springs, FL
October 24 - 26

This is the list of seedlings that we plan to bring with us to the Slipper Symposium. Divisions of some of our best 4N phrags will also be for sale. If you see something you like, just drop us an e-mail at hnorton@homesc.com and we will have it there for you.

Phrag. (Bel Royal x kovachii) \$75 each - 2 1/4" pot
Phrag. Bel Royal (Memoria Dick Clements x Sorcerer's Apprentice)
is a chartreuse flower overlaid with cranberry red which should give
a brilliant color when combined with the purple of Phrag. kovachii
which has not proven to be dominate. We believe the flowers will
be as large, maybe larger, than the Allison Strohm (kovachii x Living Fire).

Phrag. besseae var. flavum \$25 each - 2 1/4" pot
(‘Carolina Moon’ x ‘Moss Landing Sunset’)

Two of our best besseae var. flavum clones combined to make
outstanding progeny.

Phrag. Fritz Schomburg \$50 each - 2 1/4" pot
(kovachii x besseae) \$75 each - 3 1/4" pot

Natural Spread 12 cm, petal width 4.4 cm which is pretty
impressive. The best description of color is salmon, coral or my
favorite, carmine. Our two awarded clones vary a bit in color
but are each in this color range. Pictured photo on the left is

‘Katherine’ HCC/AOS

Phrag. Fritz Schomburg \$50 each - 2 1/4" pot
(kovachii x besseae var. flavum) \$75 each - 3 1/4" pot

Color is the only difference in this and the above cross. Phrag.
besseae var. flavum changed the coloration to a very soft pink.

Phrag. Maria Glanz \$35 each - 2 1/4" pot
(wallisii ‘Tower Grove’ HCC/AOS
x besseae ‘Fox Valley Gold’ HCC/AOS)

This primary hybrid is our try at making a long petal buttercup yellow flower.

11th International Slipper Symposium
Altamonte Springs, FL
October 24 - 26

Phrag. Peruflora's Cirila Alca

\$50 each - 2 1/4" pot

(kovachii x delessandroi)

Another primary hybrid that should be much like Phrag.

Fritz Schomburg but with slightly down-turned petals
and possibility of higher flower count and branching. .

Phrag. Peruflora's Spirit (Limited number near flowering size)

\$75 each - 2 1/4" pot

(kovachii x Eric Young)

Blooming size - a very few are available \$100 each

Phrag. Prissy 4N (St. Ouen x besseae)

\$35. Each - 2 1/4" pot

One of our truly red phrags.

Phrag. Sunset Glow 4N 'Twilight' AM/AOS x

\$35 each - 2 1/4" pot

Phrag. besseae 4N 'Kathy' AM/AOS

Phrag. besseae has added gorgeous deep color to Sunset Glow.
